

Do politicians ever lie?

Why is it that people are so skeptical about politicians until it comes to issues of war and peace? After all, these are the very same people who lie to us about everything else.

Did you know that . . .

- * Our politicians were complicit in Iraq's invasions of Iran and Kuwait?
- * Our politicians supplied chemical and biological agents to Iraq in the 1980s, and then protected Iraq against UN sanctions for using them?
- * Before the first Gulf War, officials of the Bush administration tricked the American public and the Saudi government into believing Iraq was about to invade Saudi Arabia?
- * Even Pentagon experts agree that there's a link between past US foreign policy and terrorist attacks against our country?
- * For the past 50 years, our politicians have set up and supported dictators, turning the citizens of those countries into sworn enemies of the American people?
- * Bush has not received the required Constitutional authorization to wage war on Iraq?
